MEASURING GUIDE

STEP 1 Stand on the KC Ruler and match your heel to the 'Place Heel Here' line

STEP 2 Distribute your weight evenly - it might take a moment with happy feet

STEP 3 Relax your toes

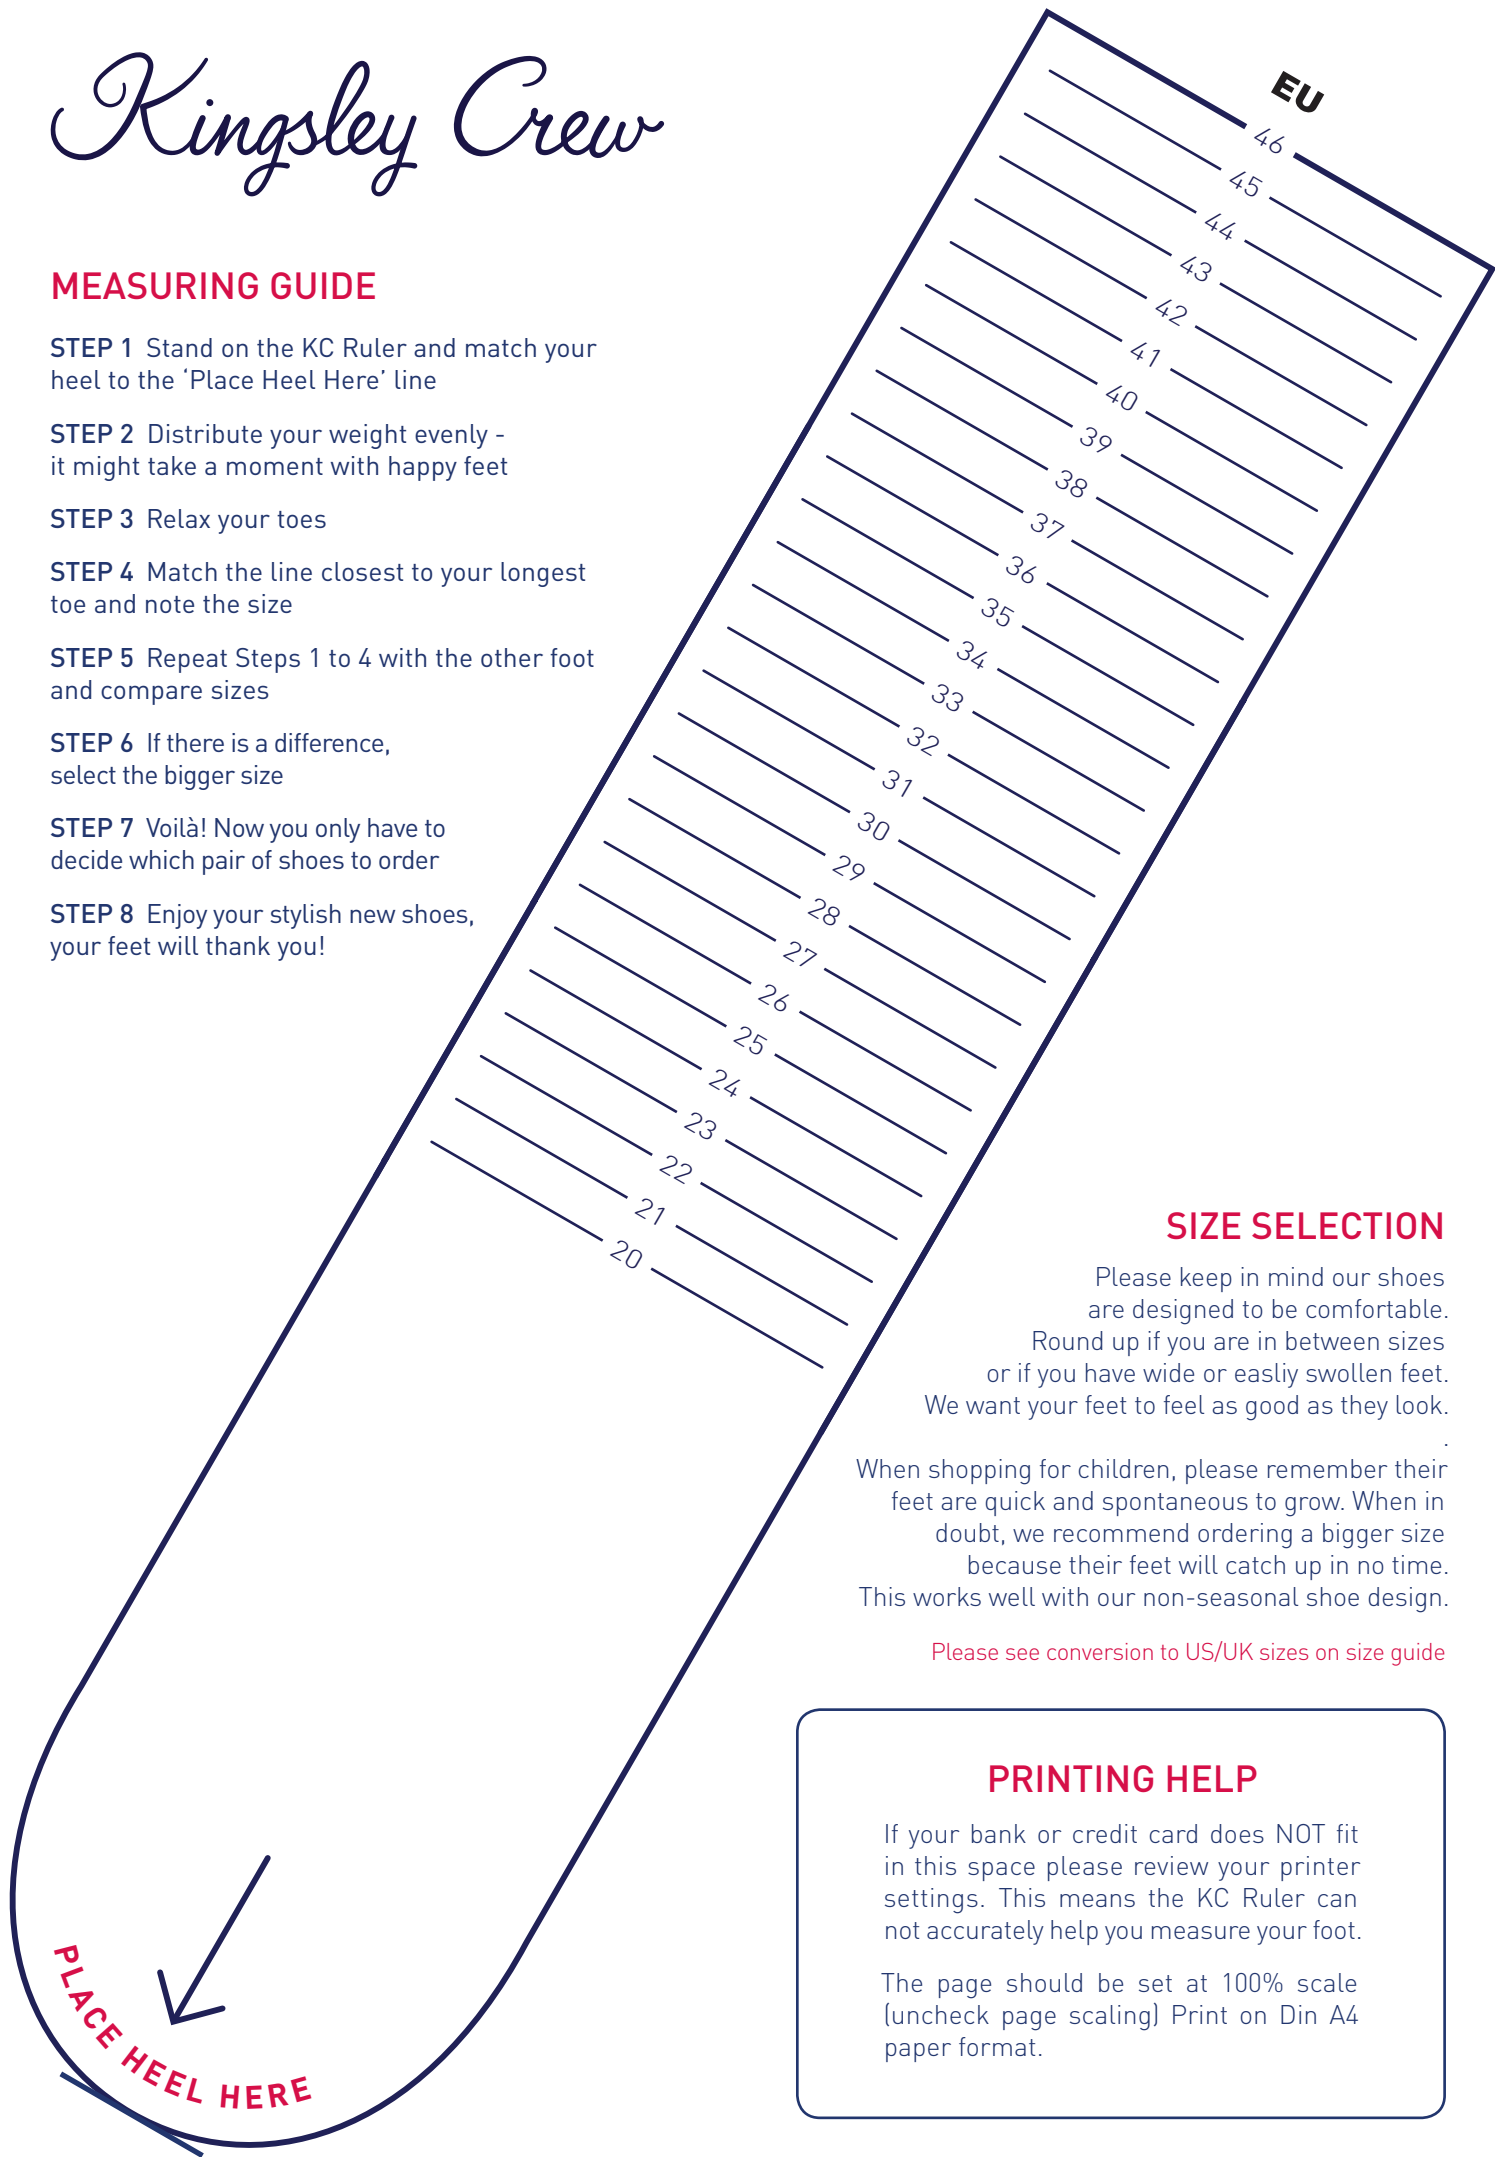

STEP 4 Match the line closest to your longest toe and note the size

STEP 5 Repeat Steps 1 to 4 with the other foot and compare sizes

STEP 6 If there is a difference, select the bigger size

STEP 7 Voilà! Now you only have to decide which pair of shoes to order

STEP 8 Enjoy your stylish new shoes, your feet will thank you!

SIZE SELECTION

Please keep in mind our shoes are designed to be comfortable. Round up if you are in between sizes or if you have wide or easily swollen feet. We want your feet to feel as good as they look.

When shopping for children, please remember their feet are quick and spontaneous to grow. When in doubt, we recommend ordering a bigger size because their feet will catch up in no time. This works well with our non-seasonal shoe design.

Please see conversion to US/UK sizes on size guide

PRINTING HELP

If your bank or credit card does NOT fit in this space please review your printer settings. This means the KC Ruler can not accurately help you measure your foot.

The page should be set at 100% scale (uncheck page scaling) Print on Din A4 paper format.
